'Our aim is simple – to get you on holidays!'

Dear Owner

Classic Holidays has been involved in the management of timeshare resorts for many years, providing experiences and memories for our members and guests that will resonate for many years to come.

We have transformed the way timeshare owners make use of their ownership — Classic Holidays has pioneered the 'one stop shop' approach to provide our members with ability to maximise their timeshare ownership.

With holiday locations throughout Australia and the rest of the world, Classic Holidays can organise getting you to your dream destination sooner!

This booklet provides information on how to do this ... and much more!

We're confident that by the time you've finished looking through this booklet, you will have a greater understanding of how Classic adds value to your ownership while helping save you money on all your travel needs.

Now all that remains is for you to look forward to weeks of fun and happiness for you and your family!

We look forward to hearing from you soon.

Chief Operating Officer, Classic Holidays

Creating happy holidays

Our History and Our Future

Taking care of our members is our number one priority and guides every decision we make. It's one of the reasons why Classic has grown from small beginnings into Australasia's largest privately owned resort and club management company.

For more than 35 years, we've worked hard to build up a deep knowledge of the industry, listening to our members at every step of the way to ensure we continue to meet your expectations. Classic's customer-centric culture is legendary, and we always deliver value, variety, and club benefits that work for our members.

Resort Management

The Classic Way!

Management by Classic enhances your Resort ownership by providing:

- Governance and protection

We work closely with managed resorts and Boards to achieve an excellent balance between giving owners a wonderful holiday experience while maintaining resort quality. The result is a guest satisfaction record consistently in excess of 95%.
